Listed below are the reasons that I could not attend ANY of the 4-H judging's.

I understand that I must have done an education project to attend Fair - this is what I did in lieu of Judging: A virtual judging may be an option if a member has not attended an educational event.

The below signatures certify that the above information is correct and hereby request that this Waiver Request be approved. I also understand that I am not eligible for state fair participation and premium payment, and must participate in a judging as determined by the Fair Superintendent.
